ROSES FOR HEDGES

Roses are becoming increasingly popular for hedge purposes. "Sunny South" for tall hedges and Ellen Poulsen or "Orleans" for dwarf hedges are both decorative and useful in the garden.

Strong plants of these varieties, 12/- per dozen; 80/- per 100.
 Delivered free in all suburbs.

WILSON'S WONDER WALNUT

We are pleased to advise that we have secured the sole distributing rights in Victoria of "Wilson's Wonder Walnut."

This Wonder Walnut, with fruits nearly 2 inches long, having thin paper shell, and full firm sweet flesh, grows on a handsome tree, which is practically free from disease, and has the extraordinary advantage of fruiting the **second year after planting**. Walnuts usually take 10 years to come into bearing.

We have a very limited quantity available, and would advise all of our clients who are interested to reserve their trees at once. Either for private or commercial purposes, Wilson's Wonder is a sound proposition.

Strong young plants, 7/6 each.
 Delivered in suburbs.
